

TITLE 20 ENVIRONMENTAL PROTECTION
CHAPTER 5 PETROLEUM STORAGE TANKS
PART 14 CERTIFICATION OF TANK INSTALLERS

20.5.14.1 ISSUING AGENCY: New Mexico Environmental Improvement Board.
[20.5.14.1 NMAC - Rp, 20 NMAC 5.14.100, 8/15/03]

20.5.14.2 SCOPE: This part applies to persons installing and repairing storage tank systems.
[20.5.14.2 NMAC - Rp, 20 NMAC 5.14.101, 8/15/03]

20.5.14.3 STATUTORY AUTHORITY: This part is promulgated pursuant to the provisions of the Hazardous Waste Act, NMSA 1978, sections 74-4-1 through 74-4-14, and the general provisions of the Environmental Improvement Act, NMSA 1978, sections 74-1-1 through 74-1-15.
[20.5.14.3 NMAC - Rp, 20 NMAC 5.14.102, 8/15/03]

20.5.14.4 DURATION: Permanent.
[20.5.14.4 NMAC - Rp, 20 NMAC 5.14.103, 8/15/03]

20.5.14.5 EFFECTIVE DATE: August 15, 2003, unless a later date is indicated in the bracketed history note at the end of a section.
[20.5.14.5 NMAC - Rp, 20 NMAC 5.14.104, 8/15/03]

20.5.14.6 OBJECTIVE: The purpose of this part is to provide for the regulation of persons installing and repairing storage tank systems which contain regulated substances in order to assure that storage tank systems are being installed and repaired in a manner which will not encourage or facilitate leaking, and which will protect the public health, safety and welfare and the environment of the state.
[20.5.14.6 NMAC - Rp, 20 NMAC 5.14.105, 8/15/03]

20.5.14.7 DEFINITIONS: The definitions in 20.5.1 NMAC apply to this part.
[20.5.14.7 NMAC - Rp, 20 NMAC 5.14.1400, 8/15/03]

20.5.14.8 to 20.5.14.1400 [RESERVED]

20.5.14.1401 GENERAL REQUIREMENTS FOR UST SYSTEMS:

A. Beginning September 16, 1989, no person may install or repair UST systems in this state unless the person is, or employs, an individual who has been certified by the department to install and repair UST systems. This provision requires certification of the individual who exercises supervisory control over the installation or repair work, whether as an officer or employee of the UST system owner or operator performing its own installations and repairs or as an officer or employee of the contracting company agreeing to perform the installation or repair for the owner or operator. Exceptions to this requirement for a certified installer include:

- (1) internal lining of a tank through the application of such materials as epoxy resins;
- (2) installation or repair of cathodic protection systems;
- (3) any other installation or repair specifically approved in advance in writing by the department as an exception to the requirement for a certified tank installer;
- (4) an applicant for UST installer certification pursuant to Subsection C of 20.5.14.1406 NMAC;
- (5) normal maintenance excluded from the definition of repair; and
- (6) work on line or tank leak detection systems performed by technicians approved in advance in writing by the department. The department will approve technicians if they demonstrate that they are trained to work on line or tank leak detection systems by the manufacturer of the systems, or other equivalent training.

B. Beginning September 16, 1989, no contracting company may install or repair an UST system in this state unless it has in its employ a certified installer who will control and supervise a given installation or repair and who will be physically present on-site at the critical junctures in the installation or repair.

C. The requirements of this part are not intended to prohibit the employment of apprentices or helpers so long as a certified installer exercises responsible supervisory control and is physically present on-site at the critical junctures in the installation or repair.

D. The requirements of this part are in addition to and not in lieu of any other licensing and registration requirements imposed by law, including any applicable requirements of the Construction Industries Act, NMSA 1978, sections 60-13-1 through 60-13-59.

E. The provisions of this part are not intended to relieve owners and operators of UST systems of their obligations and liabilities under applicable state and federal laws and regulations.

F. The department may deny an application or renewal and may suspend or revoke a certificate pursuant to the Parental Responsibility Act, NMSA 1978, sections 40-5A-1 through 40-5A-13.
[20.5.14.1401 NMAC - Rp, 20 NMAC 5.14.1401, 8/15/03]

20.5.14.1402 GENERAL REQUIREMENTS FOR AST SYSTEMS:

A. Beginning August 15, 2004, no person may install or repair AST systems in this state unless the person is, or employs, an individual who has been certified by the department to install and repair AST systems. This provision requires certification of the individual who exercises supervisory control over the installation or repair work, whether as an officer or employee of the AST system owner or operator performing its own installations and repairs or as an officer or employee of the contracting company agreeing to perform the installation or repair for the owner or operator. Exceptions to this requirement for a certified installer include:

- (1) internal lining of a tank through the application of such materials as epoxy resins;
- (2) installation or repair of cathodic protection systems;
- (3) any other installation or repair specifically approved in advance in writing by the department as an exception to the requirement for a certified tank installer;
- (4) an applicant for AST installer certification pursuant to Subsection C of 20.5.14.1406 NMAC;
- (5) normal maintenance excluded from the definition of repair; and
- (6) work on line or tank leak detection systems performed by technicians approved in advance in writing by the department. The department will approve technicians if they demonstrate that they are trained to work on line or tank leak detection systems by the manufacturer of the systems, or other equivalent training.

B. Beginning August 15, 2004, no contracting company may install or repair an AST system in this state unless it has in its employ a certified installer who will control and supervise a given installation or repair and who will be physically present on-site at the critical junctures in the installation or repair.

C. The requirements of this part are not intended to prohibit the employment of apprentices or helpers so long as a certified installer exercises responsible supervisory control and is physically present on-site at the critical junctures in the installation or repair.

D. The requirements of this part are in addition to and not in lieu of any other licensing and registration requirements imposed by law, including any applicable requirements of the Construction Industries Act, NMSA 1978, sections 60-13-1 through 60-13-59.

E. The provisions of this part are not intended to relieve owners and operators of AST systems of their obligations and liabilities under applicable state and federal laws and regulations.

F. The department may deny an application or renewal and may suspend or revoke a certificate pursuant to the Parental Responsibility Act, NMSA 1978, sections 40-5A-1 through 40-5A-13.
[20.5.14.1402 NMAC - N, 8/15/03]

20.5.14.1403 INDIVIDUAL CERTIFICATION - UST SYSTEMS:

A. Except as provided in Subsection C of this section, an applicant for an individual's UST certificate shall meet all of the following requirements in order to receive certification from the department.

(1) The applicant shall file an application with the department accompanied by a nonrefundable fee of \$50.00. At a minimum the application shall contain the following information:

- (a) applicant's name, permanent address and telephone number;
- (b) applicant's business address and any business name used by the applicant, with the business address, telephone number and facsimile transmission number;
- (c) applicant's date of birth;
- (d) applicant's social security number;
- (e) construction industries division license number and name of license holder under which applicant is working;
- (f) whether the construction industries division license in Subparagraph (e) of Paragraph (1) of this subsection has ever been suspended or revoked. If so, an explanation of the circumstances of the suspension or revocation;

- (g) the supervisor's name, business name, address and telephone number with whom the applicant apprenticed as a tank installer;
- (h) a description of the number of years of experience the applicant has as a tank installer (specify USTs and ASTs);
- (i) a description of the types and number of tanks the applicant has installed (specify USTs and ASTs);
- (j) a description of the types and number of piping systems the applicant has installed, modified or repaired (specify USTs and ASTs); and
- (k) whether applicant owes child support in New Mexico or another state;
- (2) the applicant shall be an individual and at least eighteen years of age;
- (3) the applicant need not, for purposes of this part, be a resident of the state;
- (4) the applicant shall demonstrate that the applicant is in good standing with all licensing authorities by whom licensing is required, given the nature and scope of the applicant's work, and that the applicant has not had a business or occupational license or certificate suspended or revoked in this or any other state, except as provided in Subsection B of this section;
- (5) the applicant shall meet the experience requirements of 20.5.1405 NMAC;
- (6) the applicant shall pass the on-site examination for which 20.5.14.1406 NMAC provides;
- (7) the applicant shall provide the department with evidence that the applicant has passed a New Mexico UST installer's test administered by an approved certification educator. For purposes of this section, the International Code Council is an approved certification educator;
- (8) as an alternative to the test required in paragraph (7) of this subsection, applicants may propose alternate tests and approved certification to the department for consideration, including a tank installer certification program sponsored by another state or organization, but these courses will not be approved for the requirement in Paragraph (7) of this subsection unless approved by the department in writing. Applicants seeking approval of alternate courses and alternate certification shall provide the department with all information about the course and the proposed educator to allow the department to determine whether to approve them, in the department's sole discretion. In determining whether to approve an alternate course and alternate certification, the department shall determine whether the alternate course and alternate certification provide an equivalent demonstration of knowledge of New Mexico petroleum storage tank regulations, 20.5 NMAC, and technical installation requirements; and
- (9) a notarized affidavit from the applicant stating that all information submitted in the application is true and correct.

B. Notwithstanding the provisions of Paragraph (4) of Subsection A of this section, the department may grant certification to an applicant who has had a business or occupational license or certificate suspended or revoked where the suspension or revocation, by reason of its date or nature or other considerations, is not directly relevant to the applicant's competence to install or repair UST systems.

C. UST installers who were either certified individuals - UST Level A or UST Level B shall comply with the following:

- (1) Installers who were certified individuals - UST Level A prior to August 15, 2003, shall remain certified, and need not comply again with the requirements of this section, but shall comply with the renewal requirements of 20.5.14.1408 NMAC.
- (2) Installers who were certified individuals - UST Level B prior to August 15, 2003 may do work for which a certified installer is not required, pursuant to 20.4.1401 NMAC. If a certified individual - UST Level B wants to become a certified installer - UST, the individual shall comply with the requirements of Subsection A of this section, with the exception of Paragraphs (7) and (8), on or before the expiration of his UST Level B certificate. [20.5.14.1403 NMAC - Rp, 20 NMAC 5.1402, 8/15/03]
[The department provides a form that may be used to apply for certification.]

20.5.14.1404 INDIVIDUAL CERTIFICATION - AST SYSTEMS:

A. An applicant for an individual's AST certificate shall meet all of the following requirements in order to receive certification from the department:

- (1) the applicant shall file an application with the department with the information required in Paragraph (1) of Subsection A of 20.5.14.1403 NMAC, accompanied by a nonrefundable fee of \$50.00;
- (2) the applicant shall be an individual and at least 18 years of age;
- (3) the applicant need not, for purposes of this part, be a resident of the state;
- (4) the applicant shall demonstrate that the applicant is in good standing with all licensing authorities by whom licensing is required, given the nature and scope of the applicant's work, and that the applicant has not had

a business or occupational license or certificate suspended or revoked in this or any other state, except as provided in Subsection B of this section;

(5) the applicant shall meet the experience requirements of 20.5.1405 NMAC;

(6) the applicant shall pass the on-site examination for which section 20.5.14.1406 NMAC provides. Installation of a self-contained, concrete-encased or self-contained, skid-mounted AST system is not an AST system installation for purposes of this requirement;

(7) the applicant shall provide the department with evidence that the applicant has passed a New Mexico AST installer's test administered by an approved certification educator. For purposes of this section, the International Code Council is an approved certification educator;

(8) As an alternative to the test required in Paragraph (7) of this subsection, applicants may propose alternate tests and approved certification to the department for consideration, including a tank installer certification program sponsored by another state or organization, but these courses will not be approved for the requirement in Paragraph (7) of this subsection unless approved by the department in writing. Applicants seeking approval of alternate courses and alternate certification shall provide the department with all information about the course and the proposed educator to allow the department to determine whether to approve them, in the department's sole discretion. In determining whether to approve an alternate course and alternate certification, the department shall determine whether the alternate course and alternate certification provide an equivalent demonstration of knowledge of New Mexico petroleum storage tank regulations, 20.5 NMAC, and technical installation requirements; and

(9) a notarized affidavit from the applicant stating that all information submitted in the application is true and correct.

B. Notwithstanding the provisions of Paragraph (4) of Subsection A of this section, the department may grant certification to an applicant who has had a business or occupational license or certificate suspended or revoked where the suspension or revocation, by reason of its date or nature or other considerations, is not directly relevant to the applicant's competence to install or repair AST systems.

[20.5.14.1404 NMAC - Rp, 20 NMAC 5.1403, 8/15/03]

[The department provides a form that may be used to apply for certification.]

20.5.14.1405 EXPERIENCE REQUIREMENTS:

A. To qualify for individual certification under 20.5.14.1403 or 1404 NMAC, an applicant shall demonstrate that the applicant has had one year, within the three years immediately prior to making the application, of field experience in the installation or repair of the type of storage tank systems for which the applicant is applying for certification or, with the approval of the department, closely related work.

B. An engineering degree or a license to practice engineering may substitute for six months of the experience required by Subsection A of this section.

[20.5.14.1405 NMAC - Rp, 20 NMAC 5.14.1403, 8/15/03]

20.5.14.1406 ON-SITE EXAMINATION:

A. To qualify for individual certification under Sections 20.5.14.1403 or 1404 NMAC, an applicant shall pass an on-site examination consisting of a successful installation of the applicable type of storage tank system in the presence of a designated employee of the department. The applicant shall complete each aspect of the installation successfully in order to pass the examination, including use of proper materials, proper assembly of materials, and proper testing of the tank and piping at the appropriate times during the installation.

B. An applicant may request an on-site examination for UST or AST certification any time within 180 days of the date of submission of the application provided for in Paragraph (1) of Subsection A of 20.5.14.1403 or Paragraph (1) of Subsection A of 20.5.14.1404 NMAC and accompany the request with a nonrefundable \$300 fee. The applicant shall notify the department of the date and the site of the on-site examination 30 days prior to the examination. For good cause shown, the department may, in its sole discretion, grant an applicant one 180-day extension of the time period during which the applicant must take the on-site examination. The department shall not grant more than one extension. If the applicant does not schedule an on-site examination within these time periods, the applicant shall file a new application for certification and comply with all the application requirements in 20.5.14.1403 or 1404 NMAC (as applicable).

C. The applicant shall be responsible, subject to approval by department staff, for identifying a satisfactory site and date(s) for the on-site examination. The applicant is also responsible for ensuring that all necessary equipment and appropriate materials necessary for the installation are on site. Use of inappropriate materials shall constitute failure of the examination. As long as a department staff member responsible for assessing

the on-site exam is present, the applicant may perform the activities involved in the exam even though the applicant is not a certified installer.

D. The installation shall be assessed by the department employee present at the examination who will present his findings to the department, with a recommendation as to whether or not the applicant passed the on-site examination. The department will make the determination as to the success of the installation and notify the applicant by mail within 30 days of completion of the installation. If the applicant did not pass the examination, the department shall inform the applicant that the applicant may retake the examination upon payment of a nonrefundable \$300.00 fee and upon such conditions as the department may impose to ensure that the applicant is prepared to perform a more successful installation. If the applicant does not retake the examination within 180 days of being notified that the applicant did not pass the examination or if the applicant fails the on-site examination a second time, the applicant shall file a new application for certification with the department if the applicant desires to become a certified installer.

E. The department employee may stop an on-site examination if the employee determines that the installation being conducted constitutes a threat to public health, safety or welfare or the environment. If the examiner stops the installation, his findings shall be presented to the department with a "do not pass" recommendation. The department shall notify the applicant of its decision as provided in Subsection D of this section.

[20.5.14.1406 NMAC - Rp, 20 NMAC 5.14.1405, 8/15/03]

20.5.14.1407 DENIAL OF CERTIFICATES: An applicant shall be afforded an opportunity for a hearing before the secretary under 20.5.14.1412 NMAC, in any instance afforded pursuant to these regulations and to the Uniform Licensing Act, NMSA 1978, sections 61-1-1 through 61-1-33.

[20.5.14.1407 NMAC - Rp, 20 NMAC 5.14.1411, 8/15/03]

20.5.14.1408 RENEWAL OF CERTIFICATES:

A. Certificates issued under 20.5.14.1403 and 1404 NMAC shall be renewed every four years, except that certificates issued prior to August 15, 2003, shall expire on the expiration date of the certificate, and an installer's initial certificate issued after August 15, 2003, shall expire September 16 of the fourth calendar year after it was issued. Certificates should be renewed prior to their expiration but may be renewed up to three months after the date of expiration upon payment of a late fee in addition to the renewal fee and the meeting of the requirements for renewal set forth below. Certificates which have not been renewed within this time period will be considered lapsed and invalid and applications for renewal will not be accepted after the close of the period. Any installer whose certification has lapsed as provided in this Subsection shall submit an application for a new certificate under 20.5.14.1403 and/or 20.5.14.1404 NMAC and comply with the requirements thereof.

B. At least 30 days before the expiration date of a certificate, the department shall mail a renewal application reminder to the installer, at the installer's address of record with the department. It is the duty and responsibility of the installer to timely renew the certificate whether or not an application reminder has been received from the department.

C. To qualify for renewal, a UST certified individual or installer shall:

(1) file an application with the department with the information required in Paragraphs (1) and (9) of Subsection A of 20.5.14.1403 NMAC, accompanied by a nonrefundable \$50.00 fee, together with a \$25.00 late fee if the renewal application is filed after, but within three months of, the date of expiration; and

(2) demonstrate that the installer has completed at least two UST system installations, modifications, or repairs in New Mexico during the four-year period preceding the renewal application (or a shorter period if the initial certificate was issued for less than four years under subsection A of this section) or passed a written test approved pursuant to 20.5.14.1403 NMAC.

D. To qualify for renewal, an AST certified installer shall:

(1) file an application with the department with the information required in Paragraphs (1) and (9) of Subsection A of 20.5.14.1403 NMAC, accompanied by a nonrefundable \$50.00 fee, together with a \$25.00 late fee if the renewal application is filed after, but within three months of, the date of expiration; and

(2) demonstrate that the installer has completed at least two AST system installations, modifications or repairs in New Mexico during the four-year period preceding the renewal application (or a shorter period if the initial certificate was issued for less than four years under Subsection A of 20.5.14.1408 NMAC) or passed a written test approved pursuant to 20.5.14.1404 NMAC.

E. An applicant for renewal shall be afforded opportunity for hearing before the secretary, as provided in 20.5.14.1412 NMAC, in the event the department contemplates withholding renewal for any cause other than failure to pay the required renewal fee.

F. For purposes of this section, “demonstrate” means provide copies of registration forms, inspection reports, installation checklists, written statements or other documents verifying the certified installer’s on-site, physical, hands-on participation in critical junctures of a particular installation, modification or repair.

[20.5.14.1408 NMAC - Rp, 20 NMAC 5.14.1412, 8/15/03]

[The department provides a form that may be used to apply for renewal of certification.]

20.5.14.1409 INSTALLER DUTIES AND OBLIGATIONS:

A. A contracting company shall not agree to perform installation or repair services unless it is or has in its employ one or more certified installers who will exercise responsible supervisory control over any installation or repair it undertakes, who will, at a minimum, be physically present on-site at all critical junctures in the installation or repair, give notice as required by these regulations, and who is competent to perform the particular installation or repair involved.

B. A certified individual shall exercise responsible, supervisory control over any installation or repair undertaken and shall, at a minimum, be physically on-site at all critical junctures in the installation or repair and give notice as required by these regulations, 20.5 NMAC.

C. A certified installer shall have adequate knowledge of appropriate materials, technical requirements and installation or repair procedures for any storage tank system the installer undertakes to install or repair. A certified installer shall not perform any installation or repair or affix his signature or certification number to any installation or repair for which the installer lacks competence.

D. A certified installer shall not certify to an owner or operator of a storage tank system that an installation or repair is complete unless the installation or repair complies with the New Mexico Hazardous Waste Act, NMSA 1978, sections 74-4-1 through 74-4-14, and the petroleum storage tank regulations promulgated pursuant to the Act, 20.5 NMAC. Where the installation or repair is being performed for an owner or operator on a contract basis, both the certified individual and the certified contractor for whom the individual works are responsible for the accuracy of the representations made.

E. Certified installers have a duty to report to the department any and all suspected or confirmed releases, as those terms are used in 20.5.7 NMAC, detected at a site or the surrounding area by the installer or persons working under his supervisory control, as required by 20.5.7 NMAC.

F. Certified installers shall not perform any installation, modification, repair or removal without providing notice as required by the provisions of 20.5 NMAC, except for emergency repairs as described in 20.5.5 NMAC and defined in 20.5.1 NMAC. Certified installers shall not perform any activity described as a critical juncture in 20.5.5 NMAC, without providing the 24-hour notice required by that part, except for emergency repairs.

G. Certified installers shall comply with all of the provisions of the Petroleum Storage Tank Regulations, 20.5 NMAC.

[20.5.14.1409 NMAC - Rp, 20 NMAC 5.14.1413, 8/15/03]

20.5.14.1410 COMPLAINTS:

A. When the department receives a signed written complaint from any person which indicates an apparent violation of applicable law by a certified installer, a copy of the complaint will be provided to the certificate holder along with a letter from the department specifying the statute, regulation, order or license alleged to be violated. The letter will include a reasonable description of the acts or practices alleged to be in violation of applicable law. A copy of the department's letter will be provided to the complainant.

B. The installer may, but need not, file a response to the complaint with the department. After reviewing the complaint together with any other matter in the certificate holder's record, the department will determine whether further action is to be taken.

[20.5.14.1410 NMAC - Rp, 20 NMAC 5.14.1415, 8/15/03]

20.5.14.1411 INVESTIGATIONS, ENFORCEMENT, PENALTIES:

A. The department may undertake such investigations and take such actions as it deems necessary to ensure compliance with the provisions of this part, including the issuance of compliance orders and the commencement of civil actions under the provisions of the Hazardous Waste Act, NMSA 1978, sections 74-4-1 through 74-4-14. The department may also initiate proceedings to revoke an installer's certificate under NMSA

1978, Section 74-4-4.4C and 20.5.14.1412 NMAC. The department may revoke the certificate for an installer upon grounds that the installer:

- (1) exercised fraud, misrepresentation or deception in obtaining the certification;
- (2) exhibited gross incompetence in the installation or repair of a storage tank system; or
- (3) was derelict in the performance of a duty as a certified tank installer (including repeated failure to provide notice, as required in 20.5.14.1409 NMAC).

B. Persons violating the provisions of this part may be subject to the imposition of penalties under the Hazardous Waste Act.

[20.5.14.1411 NMAC - Rp, 20 NMAC 5.14.1416, 8/15/03]

20.5.14.1412 DEPARTMENT ACTIONS AGAINST CERTIFICATES:

A. When the department contemplates denying an application or revoking a certificate, it shall serve upon the applicant or certificate holder a written notice of contemplated action as required by the Uniform Licensing Act, NMSA 1978, sections 61-1-1 through 61-1-33.

B. If the applicant or the certificate holder does not mail a request for a hearing within the time and in the manner required by the Uniform Licensing Act, NMSA 1978, section 61-1-4, the department may take the action contemplated in the notice and such action shall be final and not subject to judicial review.

C. If a hearing is requested in accordance with the provisions of this section, the secretary shall, within 20 days of receipt of such request, notify the requestor of the time and place of hearing, the name or names of the person or persons who will conduct the hearing for the secretary and the statutes and regulations authorizing the secretary to take the contemplated action, which hearing shall be held not more than 60 nor less than 15 days from the date of service of such notice. Hearings under this section shall be conducted in accordance with the provisions of the Uniform Licensing Act, NMSA 1978, sections 61-1-1 through 61-1-33.

D. If the department revokes a certificate pursuant to this section, the certificate holder may not re-apply for a minimum of two years for certification for the type of installer certification revoked (either UST installer certification pursuant to 20.5.14.1403 NMAC or AST installer certification pursuant to 20.5.14.1404 NMAC). However, if the certificate holder is certified for another type of installer certification, it shall not be affected by the revocation of the certificate for the other type of installer certification.
